SUMMARY

Versatile mid level software engineer skilled in PHP Laravel, Vue.js, and SQL databases. Passionate about web, mobile and game development. Eager to contribute expertise and drive excellence in software engineering.

WORK EXPERIENCE

Full Stack Developer, Arab Therapy Inc   **May 2023 - Present**

- Leveraged Bitbucket and Git for seamless collaboration and version control.
- Utilized Jira for efficient task management and issue tracking.
- Implemented robust validation and middleware for secure, efficient code.
- Contributed to multiple successful releases, spanning versions 5.3 to 7.0, tackling diverse challenges.
- Spearheaded Laravel jobs, cron jobs, and queues management, pivotal for project success amidst challenges.

Full Stack Developer Trainee, Devoyard   **April 2023- May 2023**

- Developed skills in Dotnet Core MVC, Entity Framework, ORM, SQL Server, and migrations through simulated tasks.
- Exhibited effective problem-solving abilities and delivery prowess during training.

Backend Dotnet Core Internship, Doctor GT   **Oct 2022 - Jan 2023**

- Completed rigorous courses in Git and Dotnet Core, gaining expertise in version control and application development.
- Learned Authorization, Password Hashing, Entity Framework, and Rest APIs basics.
- Explored Postgres DBMS, Dependency Injection, and Service Pattern concepts.
- Embraced essential tools and methodologies for software development.

EDUCATION

Bachelor of Science in Software Engineering   **Oct 2018 - Feb 2023**
Philadelphia University of Jordan

- Secured the top position among my peers in the semester's rankings during graduation.
- GPA: 4.0/4.0 - 95.2%

Graduation Project, Fitness Android Application (MyFitness Pal Like Application)

- Developed an Android app utilizing MVVM Architecture, Kotlin, and Retrofit 2 for optimal API handling.
- Implemented Observers, Live Data, Recycler Views with Swipe Delete, Fragments, and navigation components for enhanced data flow, interaction, and seamless app navigation.

ADDITIONAL INFORMATION

- **Technical Skills:** Laravel, Vue.js, SQL, Git, RESTful APIs, Request Validation, Authentication, ORM, MVM.
- **Languages:**
  - **English**: **Fluent**
  - **Arabic**: **Native**
